

Modelling of Matter Laboratory

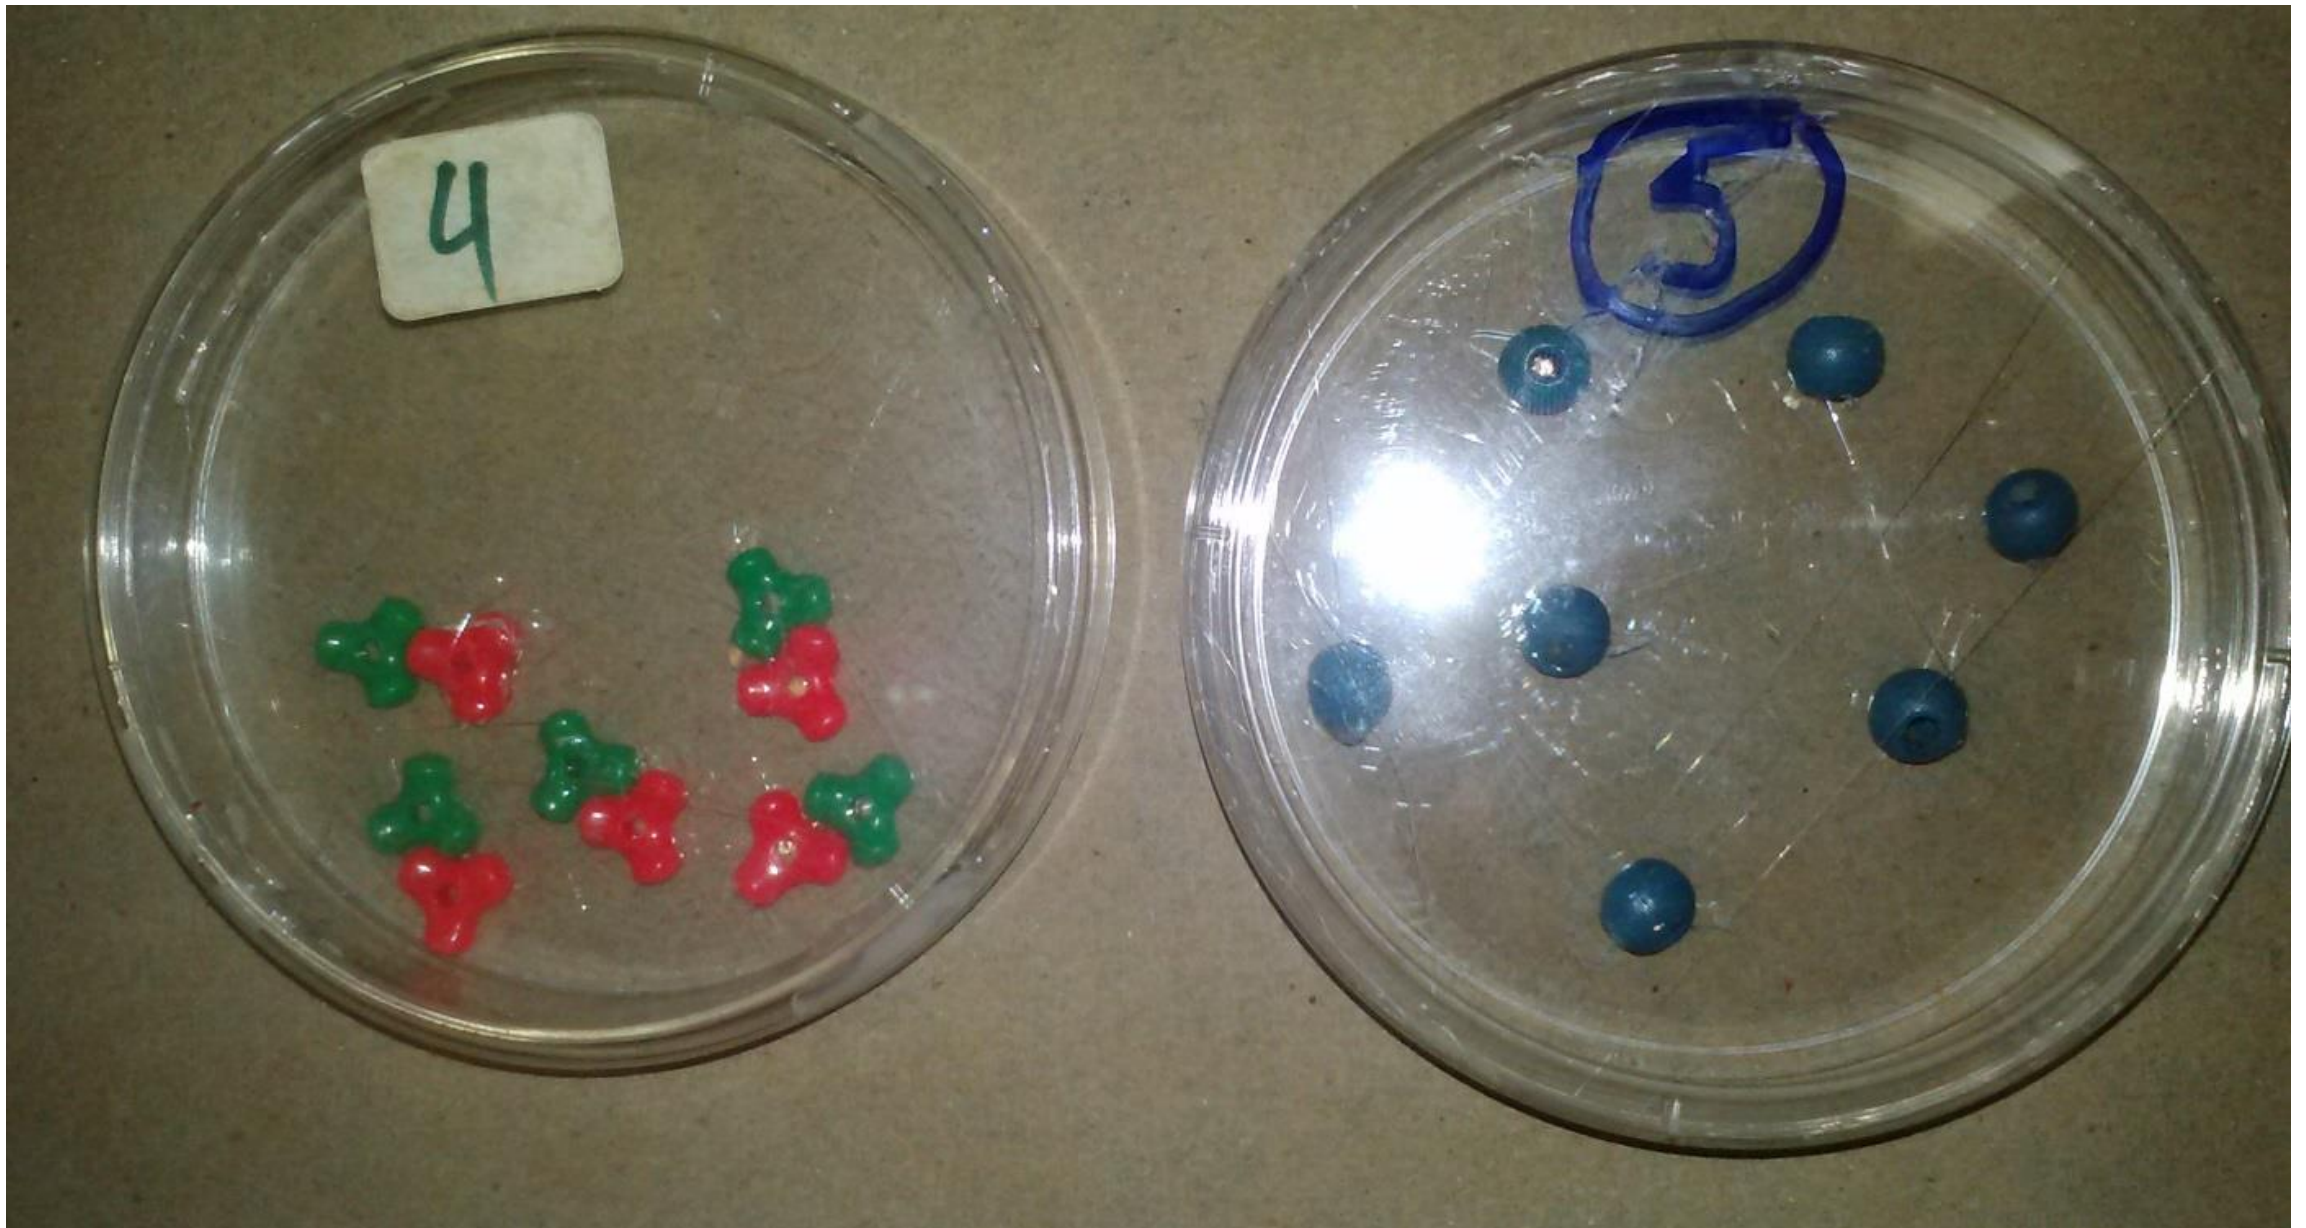

The following slides contain images for you to draw and color on your laboratory hand out. In order to complete this lab you must complete all of the vocabulary, color and correctly label all 14 particle diagrams, and complete the Regent questions at the end of the lab.

If you are missing the hand out check in the laboratory section of <http://chempride.weebly.com/> and print one out.

Draw these diagrams in circles 1,2, and 3. use the labels on your lab to describe them each label can only be used once.

Draw these diagrams in circles 4 and 5. use the labels on your lab to describe them each label can only be used once.

Draw these diagrams in circles 6 and 7. use the labels on your lab to describe them each label can only be used once.

Draw these diagrams in circles 8 and 9. use the labels on your lab to describe them each label can only be used once.

Draw these diagrams in circles 10 and 11. use the labels on your lab to describe them each label can only be used once.

Draw these diagrams in circles 12, 13, and 14. use the labels on your lab to describe them each label can only be used once.
